

# F17 TELESCOPIC CRANES

## Compact & Ultra-Lightweight Telescopic Crane

The Filmotechnic F17 Telescopic Camera Crane is an ultra-lightweight carbon fiber arm weighing in at only 150lbs. It telescopes from 4'7" to 16'8" and supports payloads up to 60lbs, making it an incredibly versatile crane for the tightest and hard to reach locations. The F17 has electronic arc compensation, electronic limits and timelapse mode (moving at 1ft per minute).
