

FLIGHT HEAD FALCON

Filmotechnic Flight Head Falcon

The Flight Head Falcon is a lightweight carbon fiber, 3-axis gyro-stabilized head that eliminates vibrations for smooth footage with lenses from 10 to 150mm. Supporting up to 40lbs, it's ideal for U-CRANE Dynamic, cable systems, telescopic camera cranes, small jibs, and more. It features direct drive motors, electronic holds, and a true gyro horizon system.

SPECIFICATIONS

- 3 Axis Gyro Stabilized
- Repeatable Actions (10 recorded moves)
- Built in shake generator
- Electronic hold on all 3 axis
- Pan axis travels through 360°
- Pan axis travels through 360°
- Roll axis travels through 270°
- Tilt Axis travels through 200°
- Payload capacity up to 18 kg (40 lbs)
